I am a third year Information Systems student at Andalas University who is passionate about web development and the design of enterprise-level solutions that bring ideas to life through technology. I thrive on solving problems, building scalable systems, and continuously learning new tools to stay adaptable in the fast changing tech landscape.

Beyond technical learning, I have also been actively engaged in experiences that shaped my teamwork, problem-solving, and interpersonal skills. Working with diverse groups of people taught me how to adapt in fast-paced situations, coordinate toward shared goals, and communicate ideas clearly. These soft skills complement my technical expertise, enabling me to contribute not only as a developer but also as a reliable team member who can collaborate effectively across different roles and contexts.

Pendidikan

Man 2 Kota Pekanbaru - **Pekanbaru, Riau** Jul 2020 - Jun 2023

Senior High School

Universitas Andalas - **Padang, West Sumatra** Aug 2023

Undergraduate, 3.63/4.00

Work Experiences

Direktorat Teknologi Informasi Universitas Andalas (DTI UNAND) Apr 2026 - Present
- **Padang, West Sumatra**

Junior Software Engineer

The central IT department responsible for driving digital transformation, managing network infrastructure, and developing core software systems forAndalas University.

- Collaborated within a development team to engineer and enhance a core internal web application for Universitas Andalas. Participated in the full software development lifecycle, contributing to both frontend usability and backend stability to improve institutional workflows and support campus digital infrastructure.

Pemerintah Provinsi Sumatera Barat - **Padang, West Sumatra** Jan 2026 - Feb 2026

Full Stack Developer

A provincial government bureau dedicated to optimizing administrative workflows, bureaucratic management, and institutional efficiency within the West Sumatra region.

- Coordinated a development team in driving the end-to-end delivery of PRADATA, an internal system focused on optimizing asset management and validating ASN data. Balanced team leadership with hands-on full-stack development to transform slow, manual government validation processes into a seamless, automated digital workflow.

Infranexia - **Padang, West Sumatra** Aug 2025 - Oct 2025

Data Management & Automation Intern

A subsidiary of Telkom Indonesia specializing in end-to-end digital infrastructure management and wholesale fiber connectivity nationwide.

- Embedded within the ASO unit, my teammates and I actively managed daily data related to network maintenance and customer complaints while partnering with the Assistant Manager to modernize inefficient workflows. Beyond routine data maintenance, we designed and built a tailored automation solution using Google Apps Script (GAS) to streamline the unit's monitoring. This collective effort successfully eliminated reporting bottlenecks and ensured high data integrity for faster operational decisions.

Pengalaman Organisasi

Laboratory Of Enterprise System - **Padang, West Sumatra** Jan 2026 - Present

Staff of Service and Training Division

A laboratory within the Department of Information Systems focusing on the design, integration, and management of large-scale enterprise systems and business processes.

- Collaborated with internal and external stakeholders to design and deliver technical training programs aimed at enhancing student capabilities in enterprise systems. Spearheaded the end-to-end recruitment process for new laboratory members including registration, selection, interviews, and onboarding while actively managing core development activities to support the laboratory's academic and training objectives.

Society of Renewable Energy Andalas University - **Padang, West Sumatra** Nov 2025 - Present

Public Relation Intern

A student led community at Universitas Andalas dedicated to youth empowerment, research, and raising awareness about renewable energy and sustainability.

- Served as a Public Relations Intern focusing on external relations, strategic communication, and community branding. Actively managed communications with external stakeholders to build cross-community partnerships, coordinated outreach initiatives, and supported the execution of external community engagement programs to elevate the community's public impact

Himpunan Mahasiswa Sistem Informasi - **Padang, West Sumatra** Nov 2024 - Present

Head of Internal Division

The official student association for the Information Systems department at Universitas Andalas, dedicated to fostering academic excellence, technical skill development, and internal community welfare.

- Headed the Internal Division to strengthen institutional culture, supervise organizational activities, and advocate for student welfare. Managed cross-functional teams in planning and executing strategic work programs, ranging from talent upskilling initiatives to structural feedback collection systems. Successfully driven collaborative efforts that improved operational harmony and directly supported student needs in both academic and non-academic domains.

BAKTI FTI 2025 Universitas Andalas - **Padang, West Sumatra** May 2025 - Aug 2025

Mentor & Consumtion Staff

The official annual orientation program for the Faculty of Information Technology at Universitas Andalas, designed to introduce incoming freshmen to the campus environment and academic culture.

- Served a dual role as a mentor and consumption staff for the faculty orientation program. Guided and mentored a group of incoming freshmen to facilitate their campus transition, while successfully managing the distribution, scheduling, and quality control of daily meals and refreshments for all participants and committee members.

LKMM-TD FTI Universitas Andalas 2024 - **Padang, West Sumatra** May 2024 - Sep 2024

Mentor & Event Organizer Staff

A formal student leadership and management training program organized by the Faculty of Information Technology at Universitas Andalas to develop core organizational skills for future student leaders.

- Served a dual role as an event organizer staff and mentor during the student leadership training program. Managed the execution of the event rundown, controlled session timings, and coordinated technical logistics to ensure seamless program delivery, while concurrently mentoring a group of participants throughout the training.

BEM KM FTI Universitas Andalas - **Jakarta** Feb 2024 - Dec 2024

Internal Auditor

The executive student government body of the Faculty of Information Technology at Universitas Andalas, responsible for organizational governance and internal accountability.

- Began as an Internal Auditor Intern before advancing to a Staff role, focusing on ensuring organizational accountability and operational transparency across the student executive board. Conducted regular evaluation audits across internal departments, tracked performance metrics, and balanced structural assessments with culture-building initiatives to maintain a supportive, high-performing environment.
